TOBIN' S PIZZA
&
Momma Teresa's Pan Pizza

Featuring:

Golden Fried Chicken - Giant Spaghetti Dinners - Sandwiches
Salads - Garlic Bread - Ice Cold Beer

HOW TO REHEAT TOBIN'S AT HOME

Preheat oven to 450° and place pizza on shelf or open rack for best results. It can be placed on cookie sheet if you like it less crisp. (Microwave cooking seems to make our dough soft and moist.)

Be sure to remove the paper and cardboard before putting pizza in oven.

We can pre-cook your pizza so you may finish it later at your convenience.

Thanks,
The Tobins

Volume II

Jim's Bits And Pizzas

January 1996

On an annual basis, we use:
1,198,080 one-ounce slices of cheese (74,880 lbs.)
32,500 lbs. of sausage (enough for 130,000 quarter pounders)
104,832 cups of pizza sauce (838,656 ounces or 6,552 gallons)
121,472 lbs. of dough (60 tons)
1,996,800 pieces of pepperoni (We counted them + or - 1%
39 miles if laid end to end)

❖❖❖❖

I've learned that when things go wrong, I don't have to go with them.

❖❖❖❖

On an average Friday night from 4:30 PM til 8:30 PM we will hand make approximately 550 pizzas (all individual combinations, 1/2 this and 1/2 that, etc. This is one pizza every 26 seconds.) We hope you enjoy us sharing this with you. Without you none of this would be possible. We really do "Thank You," our friends and customers.

❖❖❖❖

If you want to leave footprints in the sands of time, don't drag your feet.

❖❖❖❖

Some favorite combinations: For a refreshing change, try Ham and Pineapple. Keep an open mind, you might be surprised. For the meat lover, try a hearty combination of Sausage, Pepperoni, Ham, and Bacon. Delicious! The Tobin's Special is an old favorite, but if you are tired of driving your old reliable station wagon, try the Cadillac of pizza, the Tobin's Everything!

Tobin's Steakhouse??

I suppose if steaks were what we specialized in, we would have named it that. We named it Tobin's Pizza because pizza is what we do best. Our oven is one temperature, 500° F. We don't have a grill with separate controls for well done, rare, extra crispy, lightly done, etc. We do our best to bake your pizza the way you request it, but we can only control it to a certain point.

Jim's Bits And Pizzas Continued On The Back Page

Tobin's Pizza Story

Our pizza begins with a not real thick yet not paper thin, golden crust, never soggy and never messy on the bottom or sides (like our competitors). Of course we make this crust and roll it ourselves to get it this way. Next we top this golden crust with our mildly seasoned, red ripe tomato sauce. Next and almost last is the cheese, rich and buttery always cooked till it is golden (never stringy or burned). Now it is your turn, choose any of the toppings available and you are on your way to a perfect pizza.

"Family Buck Stretcher"

For only $1.00 more you can receive a 10" pizza of the same kind with the purchase of 16" pizza.
Be sure you tell us!

Momma's Got A Story Too!

We make a bread type dough, that when finished is light like bread, not a soggy noodle dough. Then we take our own blend of cheese and cover the dough completely. Next, we top this with generous portions of your favorite toppings. And last but not least, we take whole cooked tomatoes and break them up and put a heaping helping on top. We then add another cheese and sprinkle a couple of herbs and spices on top of this and then bake it in a deep pan til it's "justa right." It is very filling, so maybe we can suggest starting with a small one. We'd love to sell you a Giant, but it breaks our hearts to see delicious pizza go to waste. Our pizzas take a little longer to bake than "what's his name," but we think that after you try them, you'll be glad you waited the few extra minutes.

In the past, we have had some questions raised as to the pinkish color of our sausage when the pizza is done baking. We buy very lean sausage; the more fat you buy, the whiter the appearance. We put our sausage directly onto the sauce covered dough. This makes the sausage absorb the sauce and it retains the pinkish color. Our oven temperature never drops below 500° F, and the pizza is baked for a minimum of 8 minutes. The sausage is fully cooked, but if the color bothers you, please order something else, such as pepperoni or ham (these are also pork products and come to think of it, they don't turn white when they are fully cooked.

When ordering a pizza, we are happy to do half and half. Some people have trouble understanding why a pizza with 5 toppings on one side and 1 on the other doesn't come out perfectly done. Either we burn the side with 1 topping, or take it out before the side with 5 toppings gets completely done. Back to the steakhouse theory: you can't fix a steak half rare and half well-done.
